Report from the Bank's (Group's) Senior Management

The fundamental factors driving the global economic growth in 2014 were not stable. The oil-price plunge provided an extra fillip for the global growth. But the drag factors such as weak investor sentiment, stagnation and a low inflation environment in the euro area and Japan nullified the stimulating effect of the fillip. Geopolitical risks still remain high and reduce economic growth prospects in both Western Europe and Central Europe. According to IMF forecasts, the overall global growth of GDP is projected at 3.5 percent in 2015.

JSC Baltic International Bank (Bank) ensured the healthy growth of its key performance indicators (KPIs) in 2014. With the global economy remaining unstable and the ever more stringent requirements on risk management (regulatory standards on capital adequacy and liquidity), Bank succeeded in boosting volumes across its main areas of business and in improving its financial indicators. During the reporting period, compared with December 2013, the Bank's assets (the Group's figures are shown within the brackets) increased by 58.3 percent to reach EUR 533.03 million as at 31 December 2014 (31.12.2013: EUR 336.66 million).

The Bank made substantial strides in expanding its customer base. The Bank scaled up its efforts to acquire new customers. This in turn enabled the Bank to increase its funding base significantly -- the volume of customer deposits, as compared with December 2013, grew by 62.8 percent or EUR 172.96 million. The deposits totalled EUR 448.25 (448.24) million as at 31 December 2014 and made up 89.73 percent of the total liabilities. Customer deposits remain the primary funding source for the Bank's ongoing operations. The total customer funds, including off-balance sheet assets, grew by 40.49 percent (40.49 percent) over the year to reach EUR 683.06 (683.05) million. Throughout the reporting year, the Bank offered its customers effective solutions geared towards managing assets in both domestic and international markets. The customers were actively interested in traditional asset management, project financing and fiduciary transactions. The Bank offered its customers to co-finance business projects related to the food industry and real estate industry in Latvia and the UK. A total of EUR 3.15 million was invested in the projects.

The significant volume of external funds raised enabled the Bank to diversify its assets. The Bank carried out a substantial volume of investment operations to buy gilt-edged securities, and hence the structure of the securities portfolio (in terms of quality) changed tangibly. Sovereign bonds, bonds of multilateral development banks (MDB) and government bonds carrying investment grade credit ratings made up 86.90 percent of the portfolio. The volume of the securities portfolio totalled EUR 96.57 million or 18.11 percent (18.12 percent) of the assets as at 31 December 2014. Optimisation of the securities portfolio delivered a stable income from the bonds portfolio.

The Bank has decided to boost its securities portfolio for the purposes of application of the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (prudential standards for capital adequacy and liquidity). Currently, the Bank's asset-liability structure is fully compliant with the regulatory ratios. The Bank's liquidity coverage ratio exceeded 100 percent as at 31 December 2014 and was 253.10 percent (252.63 percent); the total capital ratio met both the regulatory threshold and the minimum individual level and was 14.43 percent (14.23 percent); the leverage ratio was 5.30 percent (5.19 percent).

The acquisition of new subordinated deposits fostered growth of the Bank's balance-sheet variables. According to 2014 financial results, the volume of subordinated deposits totalled EUR 16.70 million and showed the increase at an annualised rate of 50.44 percent.

When carrying out product diversification to gain access to funding sources, the Bank launched several new bond issues in 2014. The customers viewed the bonds as an attractive long-term investment vehicle. Thus, the Bank successfully closed its Bond Offering Programme No 1for the issue of bonds totalling EUR 20 million.

The volume of the loan portfolio totalled EUR 99.62 (97.95) million as at 31 December 2014. The loan portfolio as a percentage of the total assets does not exceed 20 percent. Mortgage loans prevail in the portfolio (71.79 percent of the total portfolio). This reflects the Bank's conservative approach to credit risk. Notably, the Bank-funded projects show a greater tendency to shift to Western Europe because of the tensions between Russia and Ukraine.

According to 2014 financial results, the Bank's operating income grew at a moderate pace (up 9.3 percent) to reach EUR 14.69 million. It should be mentioned that the Bank intends to increase a percentage of stable income within the operating income. As the customers were increasingly prone to using payment & cash services, brokerage services, trust services and card products, the net fee and commission income grew by 13.05% (13.01%). By the end of December 2014, the percentage of the net fee and commission income within the operating income totalled 41 percent (31.12.2013: 39 percent). Changes observed in the foreign exchange market enabled the Bank to report a threefold increase in foreign currency transaction gains. According to 2014 financial results, foreign currency transaction gains totalled EUR 3.91 (3.90) million and made up 27 percent of the total operating income.

The Bank continued to develop technologies in its efforts to provide more convenience in money

management. Bank also rolled out new technology solutions, including financial instruments-related service in the Internet Banking environment.

At the end of 2014, the Bank unveiled a mobile application for BIB Internet Banking. The new application enabled the customers to check their account status, loans, and payment card balances more conveniently, as well as to obtain information about the financial instruments they have purchased. From the beginning of December, the application is available free of charge for the customers (smart phone users) on Apple and Android devices.

In 3Q 2014, the Bank sponsored a number of events aimed at enhancing the business environment. Co-sponsored by the Bank, an open event Commercialization Reactor Performance Day was held in Riga on 7 October. The ongoing business workshop offered attendees the opportunity to hear stories of success attained through participation in Commercialization Reactor, meet founders of startups, learn more about projects being developed and take part in discussions with investors.

The Bank also supported the 2014 Fairness Award ceremony. The 2014 Fairness Award ceremony honours exceptional leaders whose work and life have opened opportunity and access for poor and marginalised communities throughout the world. The ceremony was held in Washington on 24 November.

Experts appreciated the Bank's achievements in private banking and wealth management. The Bank was nominated for the category the Best Bank in the Baltic States and CIS, which provides private banking and wealth management services to Customers from Russia by SPEAR'S Russia Wealth Management Awards. The award was given in recognition of the Bank's service excellence.

Bank's shareholders

The Bank's share capital totals EUR 29 496 389 and is divided into 4 154 421 ordinary shares carrying identical voting rights. All shares are registered. Each share carries the right to one vote at the meetings of shareholders, a right to receive dividends as declared from time to time and a right to residual assets. Each share has a par value of EUR 7,1. Of the Bank's 93 shareholders, 28 are corporate entities and 65 are private individuals.

Listed below are the shareholders who control more than 10 percent of the shares in the shareholders' equity:

- Valeri Belokon 69,89467%
- Vilori Belokon 30,00969%.

Bank's senior management

Supervisory Council (31.12.2014)

Name and surname	Position
Valeri Belokon	Chairperson of the Council
Albert Reznik	Deputy Chairperson of the Council
Vlada Belokon	Member of the Council

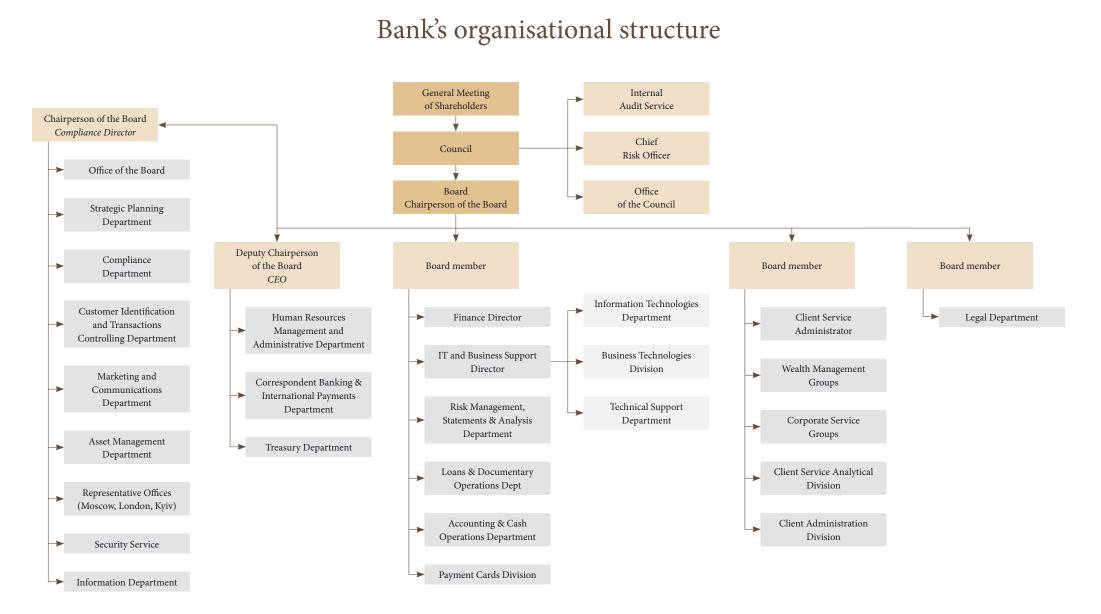

Management Board (31.12.2014)

Name and surname	Position
Ilona Gulchak	Chairperson of the Board
Natalja Tkachenko	Deputy Chairperson of the Board
Alon Nodelman	Member of the Board
Dinars Kolpakovs	Member of the Board
Inese Lazdovska	Member of the Board

During 4Q 2014 the following changes were made in the composition of the Board:

The newly-appointed Inese Lazdovska, Head of Bank's Legal Department, has taken on Board-related

responsibilities with effect from 17 October. As a member of the Board, she will be specifically responsible for ensuring legal support to Bank's overall business and providing advisory & consulting services to Bank's customers.

8

Bank's operational strategy and goals

Our mission is to become a boutique and prominent bank in the Baltic region, specifically designed to provide family wealth management (FMW) to high-net-worth individuals (HNWIs).

A 'customer-comes-first' attitude:

- Customer family's welfare and comfort: banking comfort, financial comfort, and life comfort;
- Family business interests.

Strategic axes:

Family wealth management services for affluent families: dynamic and proactive development, moderate risk.

Family wealth is managed through:

- structuring banking products according to 3 comfort levels: banking comfort, financial comfort, and life comfort;
- broadening the range of banking services to include investment offerings: asset management, alternative investments, equity investments, and brokerage services;
- developing non-financial services: tax and legal advice; structurisation, protection and inheritance of assets; lifestyle management.

While developing and offering banking product, Bank applies an open-architecture approach. Bank's target markets to acquire new customers:

- Latvia;
- Russia;
- Ukraine;
- Kazakhstan;
- United Kingdom;
- Other Western Europe countries.

Our values:

- Stability. Our conservative attitude to risk-taking has enabled us to tide over difficulties arising from the global and regional financial crisis. Wealth protection and capital preservation is our main priority.
- Trust. Customer-centric approach, reliability, high-quality service, outstanding reputation, and confidentiality
- Flexibility. Maximum comfort for every client's family in any time, any place, and any situation.
- Exclusiveness. Today's readiness for tomorrow's challenges.
- Professionalism. Understanding the features specific to Western and Eastern markets, experience in elaborating individual solutions.

Risk management

The information about risk management is available in 2013 Annual Report from page 58 till page 64 on JSC "Baltic International Bank" web page http://www.bib.lv/en/about-bank/reports. Since 31 December 2013 there are no any material changes in risk management.
